MISSISSAUGA, ONTARIO L5J 1K8

Dear Pet Parents,

Thank you for your continued support of our Purina® Pro Plan Veterinary Diets®. With the help of Purina team members across our entire organization, we were able to ensure that your clinic had a consistent supply of your pet's diet throughout 2022 to ensure that you had the products that your pet needed, when they needed them. We will continue to prioritize these diets again in 2023 and look forward to providing best-in-class service to your clinic and to you, as our valued pet parent.

In response to increasing costs of manufacturing & supply, we confirm that there will be a price increase across selected Purina® Pro Plan Veterinary Diets® & Purina® Pro Plan® products effective February 5, 2023.

Nestlé Purina PetCare continues to focus and invest in product innovation, through research and development, to bring relevant products to market, leading to healthier and happier pets.

If you have any questions, please reach out to the team at your pet's veterinary clinic or you can reach out to our team directly at 1-866-884-VETS (8387).

Thank you for your support of Purina® Pro Plan Veterinary Diets®.

With sincere thanks,

Your Purina® Pro Plan Veterinary Diets® Team
